Heat-Lamp

The Heat-Lamp model is mostly used for food counters to control their temperature, it can be easily posted with standard base flange options, and the posts are made with 304 stainless steel. It's adjustable with different heights. ADM Sneezeguards have been manufacturing sneeze guards for over 33years located in Antioch California. We have a solid reputation and are known thru out the industry as offering a durable and cost-effective product.

Model Features

- Multiple configuration
- Operator friendly
- 1" Mandrel bent tubing
- 2 1/2" Twist-Lock compression flange
- 110v

Standard Features

- Hatco graph series
- Conformance with ASTN C1048-04 and tested to ANSI Z97.1 standard and certified.
- Multiple finishes
- Optional Infinite controls

Options

- Brushed Stainless Steel
- Brushed Aluminum
- Powder Coat RAL.....Color

Accessories

- Adjustable Brackets Pairs
- Flange cover
- Support post PC/SS
- Post clip
- 6 ft. Leads

All products are manufactured to the highest standards in accordance to NSF and SGCC guidelines. To read more please see our website at www.sneezeguard.com

Please read our Installation and operating manual for safety and installation guidance.

Model Heat-Lamp

Standard Flange

Flange with Cover

Standard Flange

The standard flange is approx. 2" in diameter and accepts a number 8 coarse drywall screw. We recommend a 2" long screw for most installations, screws are not included as we do not know what surface type you will be mounting onto so the length of the screw will vary ([see video](#)).

Flange with Cover

Flange covers are designed to fit over existing flanges and hid the mounting screws from view and debris that may fall into screw heads ([see video](#)).

Above Counter Compression

Below Counter Compression

Below Counter Compression

The below counter compression allows for thru the counter installs and allows for adjustment of post height after install. This flange can not only clamp onto counter but also compress onto post. It can also be reversed mounted so not to void out any solid surface warranty. Speed socket for 3/8" drive ratchet is included ([see video](#)).

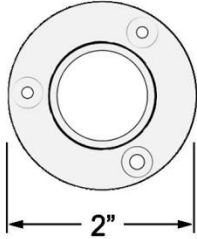

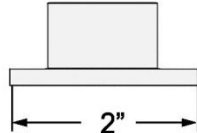

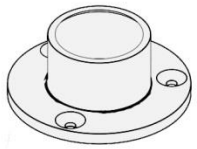

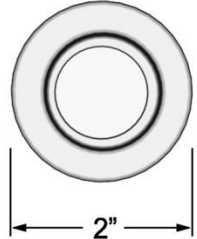

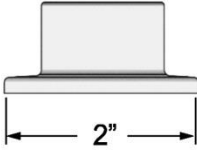

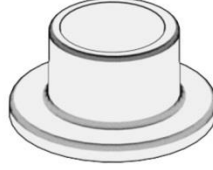

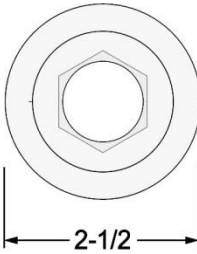

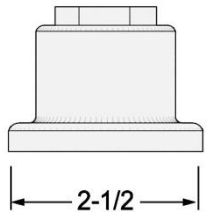

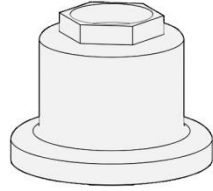

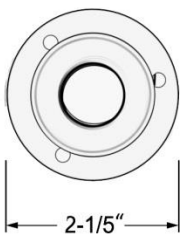

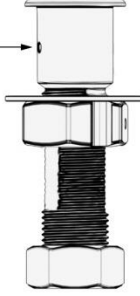

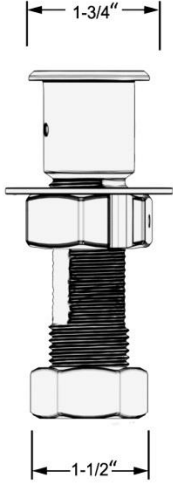

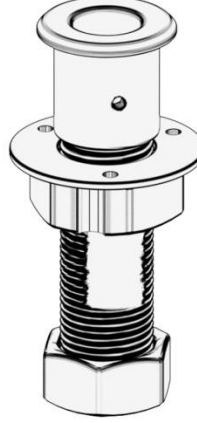

Below Counter Compression

The below counter compression allows for thru the counter installs and allows for adjustment of post height after install. This flange can not only clamp onto counter but also compress onto post. It can also be reversed mounted so not to void out any solid surface warranty. Speed socket for 3/8" drive ratchet is included ([see video](#)).
